1.0 - Introduction

This First Quarter (Q1) Budget Implementation Report generally appraises budget implementation during the first three months of the year (January to March) looking at performance of various components of the approved budget. While providing insights into realism of the various fiscal aggregates that informed the approved estimates, the performance evaluation report also helps provide initial indications on the effectiveness of the budget as approved, in facilitating the attainment of its objectives. Analysis of the budget performance is largely based on budgetary outturns during the period for both income and expenditure using variance analysis to compare approved estimates against outturns. In addition, the relative performance of each component is examined to make an objective judgement on the medium-term expectations.

The 2018 Appropriation Law was passed by the State Legislature only one month into the fiscal (1st of February) and assented by the Governor on the 6th of February. Budget implementation during the reporting period was, thus, partly based on the Provisional Release Warrant which gives authority to the Accountant General to disburse funds from the Consolidated Revenue Fund of the State as may be approved by Governor for the purpose of meeting expenditure necessary to carry on the services of the Government and the continuation of ongoing projects and programmes in the budget. Nonetheless, as usual, budget implementation during the first quarter could only be said to be gathering momentum. Execution of capital projects during the period was more on already ongoing projects. In the same vein, other than routine recurrent expenditure with regards to public service delivery and running cost of Government Agencies, a number of the other major recurrent expenditure were yet to be funded such as student scholarships and payments to National Examination bodies amongst others. Nonetheless, the relatively good opening balance for the year has made it possible to sustain funding for all the expenditure components at satisfactory levels. This has made it possible to continuously deliver the budgetary outputs and outcomes for the attainment of the state development objectives.

2.0 - The 2018 Approved Estimates

The sum of ₦138.67 Billion was appropriated for the 2018 Fiscal Year as per Law No. 1 of 2018. Taking into account the Supplementary Budget of ₦12.1 billion in September 2017, the 2018 Approved Estimate is lower than the total appropriations during the previous year by about 2.3% and lower than the original budget by almost 7%.

From the income side, about 40.5% total envisaged revenue (₦56.137 billion) would be from Federal Transfers comprising of Statutory Allocation, Value Added Tax and receipts from Excess crude Accounts and other Miscellaneous Transfers such as the exchange rate differentials. This is also equivalent to about 66% of the total recurrent incomes. Slightly less than 8% of the total budget amounting to about ₦10.513 billion is expected to accrue from Internal Revenue Sources. Local Government Contribution for Primary Education and Primary Healthcare Staff Gunduma was estimated to be about ₦17.85 Billion. These three sources made up the Recurrent Revenue amounting to ₦84.5 Billion equivalent to about 60.9% of the total budget size. This leaves about 39% of the envisaged income to accrue from other Capital I Receipts sources comprising of the following:

1	Envisaged Opening Balance for 2016 Fiscal Year	₦10.0 billion
2	Internal and External Loans	₦6.232 billion
3	Other Capital Receipts, Grants and Reimbursements including Federal Reimbursements for the Airport Project	₦37.938 billion

Breakdown of the expenditure components is provided as follows:

S/N	Expenditure Components	Approved Estimates (Naira)
1	Personne Cost	38,872,000,000
2	Overhead Cost	23,222,000,000
3	Public Dept Charges	4,442,000,000
4	Stablization and Contingency	1,000,000,000
5	Capital Expenditure	71,134,000,000
Total:		138,670,000,000

2.1 - Policy Objectives and Priorities of the 2018 Budget

As a continuation of the 2017 Budget of “Economic Diversification and Self-Sufficiency” the 2018 Budget is tagged “Budget for Sustained Economic Growth and Social Transformation” and aims to continue with policy priorities that contributes to the medium-term policy objective of “creating a self-sustaining local economy” that fully leverages on productive potentials of the State. The budget was also aligned with the Federal Government’s Economic Recovery and Growth Plan which seeks to create a national economy self-sufficient in food production with a diversified economy that optimally take advantage of the country’s comparative and competitive advantage across all sectors. Specific objectives of the budget include:

- Promoting rapid growth of the real sectors of the state's economy such as agriculture as the leading sector in generating growth and development;
- Leveraging on the agric-value chain to promote Micro, Small and Medium Scale Enterprises;
- Ensuring access, efficiency and quality in the provision of Human Development Services particularly, education, health and other social welfare services;
- Youths and women empowerment through targeted economic empowerment and other social protection programmes;
- Sustaining on-going governance reforms particularly in the area of Public Expenditure and Financial Management and Public Service Management.

3.0 - Performance Appraisal

The first quarter assessment as presented in the box [Consolidated Revenue and Expenditure Position] indicates about ₦40.28 billion as the total revenue outturn during the period from all sources (including opening balance for

Serial No.	Item Description	Approved Estimates 2018	Jan. Mar. Outturns	Q1 Performance [pro-rated]
	Total Income Receipts for the Quarter	138,670,000,000	40,275,224,987	116.2%
	Total Expenditure	138,670,000,000	25,536,645,310	73.7%
	Quarter Closing Balance		14,738,579,677	

the fiscal year). This surpassed expectations by over 16% on pro-rata. On the expenditure side, almost ₦25.54 billion was expended on the various expenditure components comprising of recurrent and capital expenditures.

This represents over 73.7% of the anticipated expenditure during the period. However, considering this is the first quarter of the year when capital expenditures are largely limited to already ongoing project, the negative variance of about 26% does not constitute much concern at the moment. With benefit of hindsight, most agencies have already commenced their procurement process which means higher level of expenditure outturns would be witnessed in subsequent quarters. The consolidated picture as presented in the box yielded a healthy treasury liquidity position of almost ₦14.74 billion. A detailed appraisal of the various components of the budget is provided in subsequent sections to allow for deeper understanding of levels and trends so far and areas that may require some proactive interventions.

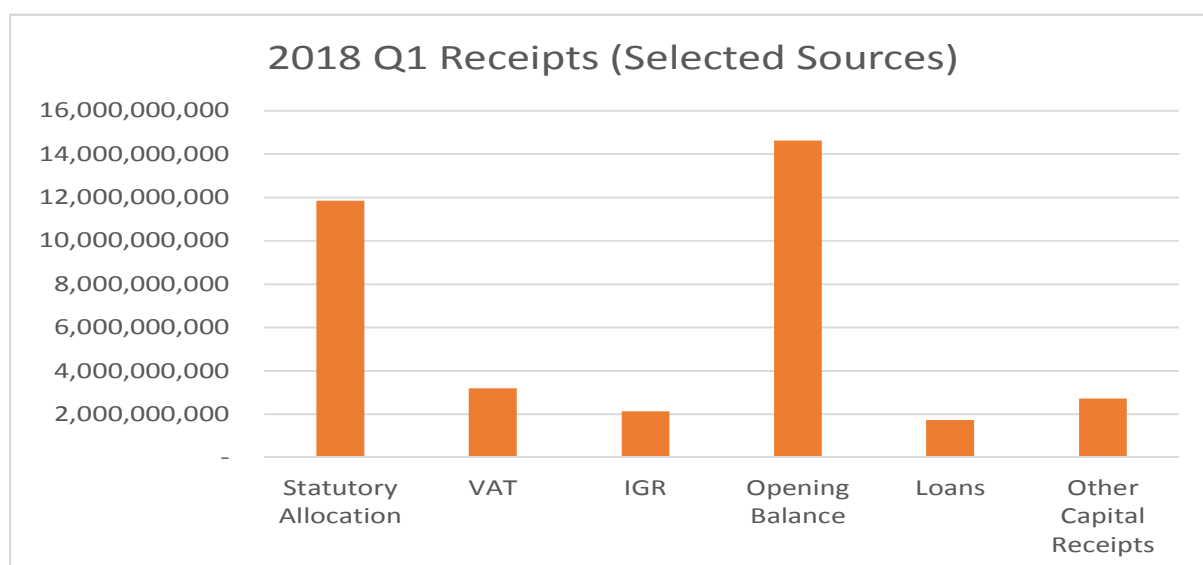

3.1 - Revenue Performance

In terms of revenue flow during the first quarter (Q1), the fiscal terrain could largely be characterized as being stable and promising for the rest of the year. In addition to having started with a comfortable higher-than-anticipated opening balance of about ₦14.62 billion (against ₦10.0 billion estimates), most of other revenue items also performed above expectation. Overall, as presented in Table 1, total receipts captured in the Consolidated Revenue Fund during Q1 amounted to almost ₦40.28 billion. On pro-rata, this performance is about 16.2% above expectation. Details of the various revenue components indicating approved estimates, total outturns on pro-rated performance is given below:

Serial No.	Item Description	Approved Estimates 2018	Jan. Mar. Outturns	Q1 Performance [pro-rated]

26	C. Internal Loans	1,800,000,000	1,700,000,000	377.8%
27	D. External Loans	4,432,000,000	50,000,000	4.5%
28	E. Aids / Grants and Other Capital Receipts	37,938,000,000	2,722,789,896	28.7%
29	Total Capital Receipts	54,170,000,000	19,089,282,749	141.0%
	Total Income Receipts for the Quarter	138,670,000,000	40,275,224,987	116.2%

On the recurrent revenue side, the sum of almost 21.19 billion was received from all sources representing about 100.3% of what was expected (positive variance of 0.3%). Expectedly, the highest receipts were from Statutory Allocation and value Added Tax from which about ₦11.345 billion and ₦3.19 billion accrued both of which have slightly surpassed expectations. Receipts related to Local Government counterpart contributions were also satisfactory as these are deducted at source in line with the actual budgetary requirements. These include salary related deductions based on monthly payrolls (Primary Education and Primary Healthcare Staff) and of the LGA contributions for shared-funding of some public services). The performance with respect to other IGR components

is perhaps relatively below average with a negative variance of about 19%. It was however observed that returns from some of the agencies and parastatals – particularly those yet to be captured in the Treasury Single Account (TSA) were not complete. While this partly explained the large negative variance, more still needs to be done during the rest of the year to ensure that outturns from all the IGR sources continuously improved and captured in the treasury records. This is more so considering the fact that about two-thirds of the actual IGR collection during the period were accounted for by pay-as-you-earn from the public and non-public sectors and LGA financing items (counterpart funding) for certain public service delivery such as operations and maintenance of water facilities, street light maintenance and payment of social security allowance among others.

With regards to Capital Receipt, available records indicated that about ₦19.09 billion has accrued into the Capital Development Fund from various sources. The most significant among these – which constituted about 77% of the amount – was in respect of Opening Balance for the year transferred to Capital Development Fund with actual amount being almost ₦14.62 billion. Others includes receipts in respect of Internal Loans from which ₦1.7 billion was drawn down against the budget estimates of ₦1.8 billion. This was in respect of balance drawdown from the Federal Government Budget Supported being received in tranches since 2017. The receipt of about ₦2.72 billion from Other Capital Receipts includes Local Government Capital Contributions and drawdowns from TET Fund for some Tertiary Educational Institutions in the State (refer to details in the appendix). The extra-ordinary performance in respect of the 2018 Opening Balance and receipt from Internal Loans were apparently responsible for the over 40% positive variance of the capital receipt outturns during the first quarter. Notwithstanding, again, it may be too early to raise any alarm as regards receipts into the Capital Development Fund from the other sources. Based on the approved work and procurement plans for the loans / grants funded projects and programmes, significant drawdowns are expected in the subsequent quarters.

3.2 - Expenditure Appraisal

Records available indicated a total actual expenditure of about ₦25.54 billion which is equivalent to about 18.4% of the total approved estimates. On pro-rata basis, this represents about 73.7% performance which gives a negative variance of almost 26%. Overall, Recurrent Expenditure performance was relatively more impressive with almost 88% performance (a negative variance of less than 12%). This is generally a satisfactory performance considering that budget implementation during the first quarter of any fiscal year is historically low. As depicted in table 3 below, only with respect to payments for debt obligations was performance below average which was explained by the fact that for some of internal debt obligations, payments for both principal and interest are due to start later in the year. Relative to Personnel Cost, the outturns for Other Recurrent and Capital Expenditures with

Total Expenditure		138,670,000,000	25,536,645,310	73.7%

about 77% and 60% performances, is lower. While seemingly below average, being the first quarter, this may not necessarily be of great concern. Capital payments during the first quarter were largely in respect of ongoing projects particularly in the roads sector which largely explains the large variance of about 40% on capital expenditure. Outturns with respect to overheads and other recurrent expenditure is relatively better compared to capital expenditure (about 23% against almost 40%).

3.3 – Output – Outcome Appraisal

As earlier mentioned, budget implementation during the first quarter was largely with the respect to already ongoing capital projects and funding of other routine public service delivery.

S/N	Consolidated Capital Expenditure Estimates	Approved Estimates	Outturns	Q1 Performance [pro-rated]
01	Administrative	3,277,050,000	322,863,877	39.4%

8	Jigawa State Reh. Board	540,000,000	194,849,200	144.3%
9	Special Service Directorate	725,000,000	135,230,670	74.6%
10	Government House	900,000,000	126,613,540	56%
11	Ministry of Health	172,000,000	112,882,249	262.5%
12	Min. of Finance & Eco. Planning	1,400,000,000	96,548,602	27.6%

This much is depicted in the spread of the outturns across the various sectors and spending areas in tables 4 and

5 above respectively. On the capital expenditure side, more expenditure were reported in the Economic Sector (largely on road infrastructure and agricultural projects) accounting for over 60% of the total capital expenditure outturns with about 68% performance. This was followed by the Social Sector which accounted for about 33% of the outturns but with only about 53% performance. For the latter, the details indicated that while over ₦2.7 billion was expended on the execution of basic education and senior secondary education projects and programmes, only about ₦0.8 billion was expended in the health sector. The dozen spending units captured in table 5 accounted for over 72% of the actual non-personnel recurrent expenditure during the first quarter. Topmost is public debt service which in absolute figure has the highest amount expended of almost 0.57 billion during the period but with a performance variance of about 49%. As earlier pointed out, this was explained by the fact that repayment in respect of some of the internal loans, like the Federal Budget Support Facility, is yet to commence. Next topmost spending unit is the State House of Assembly of over ₦0.49 billion and positive variance of about 3% - meaning that period expectation was surpassed by this percentage point. Other than these two areas, a cursory look at all the other spending units would reveals that these were all agencies providing direct public service in such areas as education, health, social welfare / protection and public safety / security. The relatively high proportion of the quarter spending in these areas suggest high propensity for the budget implementation to deliver on its objectives as earlier presented.

4.0 - Conclusion and Recommendations

Finally, it could be concluded that budget performance during first quarter of the year was satisfactory especially when considered against the fact that implementation at beginning of the year are normally affected by late passage of the Appropriation Law with low level of capital project execution (other than already ongoing projects). Also moving forward into the second quarter with a positive variance of over 16% which, in absolute terms, is almost ₦15 billion, is a precursor for stronger performance in the subsequent quarters particularly given positive variances in most of the major income sources like receipts from the Federal Account. On the expenditure side, a negative variance of about 26% was recorded as explained by the issues raised above which is however, expected to be drastically reduced in the second quarter and beyond. Moreover, the expenditure outturns across both recurrent and capital expenditure components suggest positive progress towards the delivery of the set budgetary outcomes and objectives.

Going forward into the second quarter some of the actions that need to be taken to improved performance include among others:

- a) Broadened implementation of the Treasury Single Account to capture as many parastatals as possible as well as improved reporting by all other revenue-spending MDAs;
- b) Need for improved accuracy in expenditure recording and classification at both the MDA and Treasury levels. Instance of capital releases to MDAs recorded as recurrent where still observed;
- c) Ahead of the impending implementation of a state-wide automated financial management information, centralized and direct payment of major recurrent expenses should be on the table;
- d) Early commencement of procurement process for big capital projects to ensure commencement during the second quarter;
